Re: Stop the 2022 Genocide Games

Dear Ms. Lyons:

As you know, over 100 individuals associated with national security, human rights and faith organizations joined us in writing you on [April 15th](#) urging the U.S. Olympic Committee to press for the 2022 Winter Games to be held in a venue other than Beijing, China in light of the Chinese Communist Party's ongoing genocide and other crimes against humanity.

The signatories of our open letter made clear that doing otherwise would be tantamount to rewarding the Chinese Communist Party for such outrages by allowing it to host perhaps the most prestigious international event in the world. We strongly believe that the CCP should be recognized as the Transnational Criminal Organization it is and treated accordingly.

Consequently, we asked that you respond within ten days "whether you and the rest of the U.S. Olympic Committee will stand with us or with the genocidal Chinese Communist Party." As we have not had the courtesy of a reply, the USOC has left us no choice but to pursue a boycott of what will henceforth be known as the Genocide Games.

To that end, we will be using every available vehicle, including a public protest in Colorado Springs on May 29th, to urge the American people, policymakers, athletes and sponsors to refuse to legitimate the Chinese perpetrators of deadly oppression of ethnic minorities including Uyghur Muslims, involuntary organ harvesting, industrial-scale forced abortions and sterilizations, toxic pollution and other monstrous crimes itemized in our previous letter.

We once again urge you and your Committee to stand for freedom by sponsoring 2022 Freedom Olympics in this country or elsewhere and against Communist China's Genocide Games.

Sincerely,

Reggie Littlejohn
